THE STEP FORWARD ROADMAP

5 steps to greater confidence, visibility and influence

A practical guide to help you take your next step, whether that's greater visibility, leadership progression, a board opportunity or a new direction.

1 Define Your Next Move

Get clear on where you want to go next. Whether that's senior leadership, a board opportunity, greater visibility, public life or a new career direction.

- Explore what motivates you
- Identify your goals
- Clarify the opportunities you want to pursue

2 Build Your Confidence

Recognise the experience and strengths you already have, challenge self-doubt and take action that pushes you slightly beyond your comfort zone.

- Recognise your unique value
- Challenge limiting beliefs
- Build confidence through action

3 Strengthen Your Presence

Consider how you communicate, contribute and present yourself. Strong presence isn't about becoming somebody else — it's about making sure your ability is seen and heard.

- Communicate with clarity
- Contribute with confidence
- Present yourself authentically

4 Grow Your Influence

Map the people in your network and the relationships you need to develop. Identify key individuals who can support, sponsor or open doors to new opportunities.

- Build meaningful relationships
- Expand your professional network
- Increase your visibility in the right spaces

5 Step Forward

Turn your ambition into action. Choose three things you will do in the next 90 days, give each one a deadline and take the first step this week.

- Set clear actions
- Give each one a deadline
- Take the first step this week

You don't need to have your entire future figured out.
You just need to know your next step.

BE SEEN.
BE HEARD.
BE INFLUENTIAL.
